

Thank you for choosing Rosetta hardscape products. The following are some helpful tips to make your first installation go smoothly. For more in-depth technical information, see our Kodah Technical Guide (available at [discoverrosetta.com](http://discoverrosetta.com)) or contact Bob Conklin with Rosetta Technical Support at (877) 777-6558 ext 3081.

*Your safety is important to us. Please follow OSHA guidelines, and utilize safety-toe boots, hardhats, gloves and eye, ear & respiratory protection whenever appropriate.*

## LIFTING BLOCKS

- Always lift Kodah blocks in teams of two people. The heaviest block is 200 pounds!

## BLEND MULTIPLE PALLETS

- In order to achieve the best possible color blend, utilize material from multiple pallets simultaneously (when applicable).

## SETBACK

- To achieve proper setback in a retaining wall (7°), place each row of block  $\frac{3}{4}$ " back from the previous row. (see graphic on reverse side of this sheet)

## AVOID VERTICAL SEAMS

- Lay blocks in a random order to avoid the appearance of vertical seams.

## CURVED WALLS

- Curved walls can be made with a minimum radius of 8 1/2 ft.

## GLUING

- For additional strength, adhere rows of block together with landscape adhesive.

## REQUIRED TOOLS

- PLATE COMPACTOR
- SHOVEL
- RAKE
- LEVEL

### OPTIONAL TOOLS:

- TRANSIT LEVEL
- STRING LINE
- CUT OFF SAW
- LANDSCAPE ADHESIVE

### OTHER:

- NON-WOVEN GEOTEXTILE FABRIC
- 4" PERFORATED DRAIN PIPE
- GEOGRID

# KODAH

## QUICK INSTALL TIPS

### TYPICAL RETAINING WALL SECTIONS

#### GRAVITY, NON-REINFORCED (0-3 FT TALL [EXPOSED] WITH NO SURCHARGE)

#### REINFORCED (GENERALLY 2 FT TALL AND ABOVE, AS REQUIRED IN THE KODAH TECHNICAL GUIDE)

### TYPICAL FREESTANDING WALL SECTION

### COLUMN INSTALLATION

\*Requires Corner Blocks

**STEP 1**  
Place (4) Kodah Corner blocks with the same taper, facing into the center of the pillar.

**STEP 2**  
Place a second row of (4) Kodah corner blocks with the opposite taper, facing into the center of the pillar.

**STEP 3**  
Continue with subsequent rows to the desired pillar height. One pallet of Kodah corner blocks will create a 32" x 32" x 36" tall column.

**STEP 4**  
Place a column cap to finish the pillar. The column cap can be cored as needed for installation of a lamp.
