Thank you for choosing Rosetta hardscape products. The following are some helpful tips to make your first installation go smoothly. For more in-depth technical information, see our Outcropping Installation Manual (available at discoverrosetta.com) or contact Bob Conklin with Rosetta Technical Support at (877) 777-6558 ext 3081.

Your safety is important to us. Please follow OSHA guidelines, and utilize safety-toe boots, hardhats, gloves and eye, ear & respiratory protection whenever appropriate.

PATTERNS
• Wall patterns are available in our Outcropping Installation Manual.

LAYOUT SOFTWARE
• Wall layout software is available for download at discoverrosetta.com.

BLEND MULTIPLE PALLETs
• In order to achieve the best possible color blend, utilize material from multiple pallets simultaneously (when applicable).

SHEAR HEAL REMOVAL (BASE ROW)
• Using a sledgehammer, knock the shear heels off the blocks to be used on the base row. This will make leveling the base row easier.

SETBACK
• For proper wall setback, align the blocks in the base row as shown in the included graphic.

BACKFILL EACH ROW
• Always backfill the wall as you go. Stacking blocks without backfill could result in the wall falling over.

INSTALLATION GUIDELINES
• Follow all guidelines set forth in the Outcropping Installation Manual. Improper installation practices can result in wall failure.
